

## **ARLON® FR** (Flame Resistant) Self-Fusing **Silicone Tapes**

Rogers offers a fire resistant ARLON® Self-fusing tape. This product is composed of UL94 V-0 recognized silicone rubber compound which meets FAR 25.853 and NFPA 130 standards. They bond irreversibly to itself providing an insulative barrier resistant to moisture, oxygen, ozone and corona over a wide temperature range -51°C to 260°C (-60°F to 500°F). These products provide superior electrical insulation with dielectric strength ranging from 400-900 VPM.

- Composed of UL V-0 recognized silicone rubber
- Available in rectangular, triangular and reinforced construction
- Meets A-A-59163A
- REACH and ROHS compliant
- Electrically Insulating
- Fuses only to itself
- Chemically activated upon stretching
